

Problem Statement No.12 - Agentic AI for Personalized Course Pathways.

The Challenge - Students often struggle to identify the right learning path that aligns with their interests

and long-term goals due to the overwhelming number of online courses and a lack of personalized

guidance. LearnMate aims to solve this by acting as an Agentic AI coach that interacts with students,

understands their interests (like Frontend Development, Cybersecurity, UI/UX Design, etc.), assesses their

current skill level, and dynamically builds a personalized course roadmap that adapts over time based on

progress and preferences.

Technology – Use of IBM Cloud Lite services / IBM Granite is mandatory.
